COACHING CONSULTING FACILITATION

About Trive

Trive is a business consultancy specialized on helping leaders and organizations change their habits, mindsets, and processes around work.

Our mission is to bring great work and a great culture to organizations everywhere.

We want to help you develop sustainable habits that you'll keep for a lifetime, not just while we work with you. Because everyone wants to do great work, find a place to belong, and be successful – we provide the awareness, tools, and support to get there.

The verb 'trive' comes from old Norse and means to 'firmly grasp, grow and flourish.' That is what we do – we use our expertise and proven tools to help organizations and leaders define and implement clear strategy and leadership behaviors, align the organization on critical priorities and goals, and build a more engaged, healthy, and productive organization.

What We Do

Consulting

Organizational performance and results isn't just about what people do. It is about having the right people, mindsets, skills, and practices to deliver on the why. This requires clear leadership and deliberate execution, and it starts on the top.

Trive works with leadership teams to examine and improve the way they work, lead, and communicate. In this work, leaders will commit to an organizational strategy, with clear priorities and actions to build sustainable competitive advantage and support the workforce in achieving strategic goals.

Coaching

We work one-on-one with leaders or their team members to help navigate through transition, build skills to get to the next level, improve communication and self-awareness, develop leadership skills or shape the road map to what's next.

In-person and virtual options are available to fit your needs.

Learning & Development Resources

Trive can serve as a fractional Chief Learning Officer or help your trainers get certified and bring our programs in-house.

We offer regular certifications and courses for facilitators, trainers, and managers. We also provide all the slides, videos, activities, and speaker notes, making the process to bring meaningful organizational change to your people, team, and organization easy and convenient.
